XVI. WASTE MINIMIZATION (narrative description)

Paints and coatings are dictated by customers, so reformulation has not been successful.

In 1982 we started an employee training program on paint and thinner conservation and carried the program on into 1984 and 1985.

We have had no change in toxicity of waste.

We had a 20% reduction in volume of waste in 1985 over waste in 1984.

In 1985 we had approximately 3% reduction in volume even with the cut back in production.

RE: Notification of Hazardous Waste Activity

Dear Mr. Woods:

Attached you will find a copy of your EPA Form 8700-12(6-80) for our Mosher Steel Company facility located at 5101 Maple Avenue, Dallas, Dallas County, Texas 75235.

Since this facility would be considered an exempt generator under the Resource Conservation and Recovery Act (RCRA) 40 CFR Part 261.5, and would not generate more than a few 55-gallon drums of paint waste in (90) days, I filed an EPA Form 3510-1 (6-80) on November 19, 1980. We were asking for a storage permit. This way we could save money on transportation costs by storing on-site until we had a full load (eighty drums). At the time permitted disposal companies were charging the same price for transporting one (1) drum of hazardous waste as they do for eighty (80) drums, disposal companies use forty-foot trailers which can hold eighty drums.

When the U.S. Environmental Protection Agency (U.S. EPA) removed F-017 (paint residues generated from industrial painting), and F-018 (wastewater treatment sludges from industrial painting) from its "Hazardous Wastes From Non-Specific Sources" list, and with the increasing new regulations on storage facilities, I had requested you to withdraw my Part A request. Now that the U.S. EPA says paint waste is not hazardous just because it is paint waste, we had an Environmental Laboratory in Austin, Texas do an analysis on our waste. The analysis of our paint waste showed it did not fall under 40 CFR Part 261.21 characteristic of ignitability and after E.P. Leachate test, it did not fall under 40 CFR part 261.24 characteristic of EP Toxicity or 40 CFR parts 261.22 and 261.23.

We, as most steel facrication companies, are feeling the decline in the economy for our type of work. We are having a lot of stock paint to loose its shelf life. We also may be taking some jobs which is not part of our normal product, which may require paints which may fall under 40 CFR 261.24 characteristic of EP Toxicity.

Since we will have a large load of paint which has lost its shelf life and will be shipped as a flammable liquid (EPA Waste Code D-001), and not knowing what customer paints we will be using on these not normal production jobs, and adding the fact that the U.S. EPA has under promulgation that now one time exempt generatory now will require a EPA generator number, I respectfully request a number to be assigned to this facility.

I am mailing this Certified Mail so I will know when you receive this application so I can call in hopes of receiving our number verbally, so we will not have to wait for our notification.

Please contact me if you have any questions. My phone number is (214) 631-4420 ext. 254.

Sincerely,

Jerry Riddles, A.S.P., C.H.C.M.
Assistant Corporate Safety Director

ACKNOWLEDGEMENT OF NOTIFICATION
OF REGULATED WASTE ACTIVITY
(VERIFICATION)

This is to acknowledge that you have filed a Notification of Regulated Waste Activity for the installation located at the address shown in the box below to comply with Section 3010 of the Resource Conservation and Recovery Act (RCRA). Your EPA Identification Number for that installation appears in the box below. The EPA Identification Number must be included on all shipping manifests for transporting hazardous wastes; on all Biennial Reports that generators of hazardous waste, and owners and operators of hazardous waste treatment, storage and disposal facilities must file with EPA; on all applications for a Federal Hazardous Waste Permit; and other hazardous waste management reports and documents required under Subtitle C of RCRA.

Phone no.: (410) 631-5876

Subject: 8700-12

Information for file: MR. BAH RETURNED MY TELEPHONE CALL. I ASKED HIM IF HE WANTED US TO INACTIVATE THEIR EPA ID. BECAUSE ON THE 8700-12 IN THE COMMENTS THEY MENTIONED THAT THE FACILITY IS CLOSED AND THAT RED STAR YEAST IS NO LONGER THE OWNER NOR OPERATOR. HE ALSO MARKED THAT THERE WAS A NEW OWNER BUT HE LEFT THE OWNERSHIP FIELD BLANK. MR. BAH TOLD ME THAT HE WANTED US TO INACTIVE HE EPA ID AND HIS SUR#. HE ALSO MENTIONED THAT THE NEW OWNERS WERE GOING TO BUILD APPARTMENTS THERE AND THAT THEY PROBABLY WOULDN'T ASK US TO REACTIVATE IT BECAUSE THEY PROBABLY WONT GENERATE HAZ WASTE. I TOLD HIM THAT WE WERE GOING TO INACTIVATE HIS EPA ID.
